HILLSBOROUGH COUNTY, NEW HAMPSHIRE USHERS IN E-RECORDING

HILLSBOROUGH COUNTY, NEW HAMPSHIRE – December 23, 2008 – Simplifile today announced that on December 10, 2008, Hillsborough County, New Hampshire began electronically recording (e-recording) land record documents such as deeds, mortgages, and other land records documents submitted by attorneys, title companies, and banks to the Hillsborough County Registry of Deeds Office through the Simplifile e-recording service.

E-recording is the process of submitting, receiving, and processing documents for recording via a secure Internet service that have traditionally been sent to the county for recording by runner, express mail, or courier service. E-recording simplifies and accelerates all aspects of the recording process and improves the county's ability to serve its users.

"Simplifile is excited to partner with the Hillsborough County Registry of Deeds and its land indexing provider, Connor & Connor, to provide industry-leading e-recording services to their customers. The Hillsborough County Registrar of Deeds, Judith A. MacDonald, continues to demonstrate leadership by bringing e-recording to Hillsborough County and to the state of New Hampshire. Her many years of service has been punctuated by ushering in e-recording to Hillsborough County and making the land record submission and recording process easier," said Paul Clifford, President of Simplifile.

"Companies doing business with the County Registry of Deed's Office will enjoy significant cost savings, productivity gains, and enhanced filing and recording by e-recording."

"The Hillsborough Registry of Deeds Office is pleased to work with Simplifile to provide e-recording for land record documents," said Hillsborough Registrar of Deeds, Judith A. MacDonald. "We are continually evaluating ways to improve the quality of our services, and believe that e-recording enables us to more efficiently record documents. We are working with private sector partners, like Simplifile, to improve turn-around times and increase efficiencies. E-recording customers working with Simplifile will have the ability to record, track the status of documents and transfer the appropriate fees to the registry from the convenience of their offices, using a standard web browser."

About Simplifile

Simplifile provides innovative, simple, and secure electronic recording services via the Internet for a wide variety of customers, including title companies, banks, attorneys, lien filers, and county and state government jurisdictions. Simplifile e-recording services accelerate document recording and simplify document workflow processes, significantly reducing costly overhead associated with traditional submission and recordation methods while dramatically improving client service levels.

Simplifile is focused on building the industry's de facto e-recording network. As such, Simplifile provides a streamlined yet scalable approach to electronic recording tailored to organizations of all

shapes and sizes. For more information on how Simplifile can benefit your organization, visit www.simplifile.com or call 801.373.0151.
