**PERRY COUNTY, PENNSYLVANIA BEGINS E-RECORDING WITH SIMPLIFILE**

**PERRY COUNTY, PENNSYLVANIA – February 3, 2009** – Simplifile announced today that on January 21, 2009, Perry County, Pennsylvania officially began electronically recording (e-recording) land record documents such as deeds, mortgages, and reconveyances submitted by title companies, abstractors, banks, and attorneys through the Simplifile e-recording service.

E-recording is the process of submitting, receiving, and processing documents for recording via the Internet that have traditionally been sent to the County for recording by runner, express mail, or courier service. E-recording simplifies and accelerates all aspects of the recording process and dramatically improves the County's ability to serve its constituents.

"The Perry Recorder of Deeds Office is pleased to work with Simplifile to provide e-recording for land record documents," said Perry County Register of Deeds, Wendy M. Welfley. "We are continually evaluating ways to improve the quality of our services for those that we serve. E-recording is not only cost effective, it eliminates trips to the county and expedites the recording workflow process. E-recording customers working with Simplifile will have the ability to record and track the status of documents from the convenience of their offices, using a standard web browser."

"Simplifile is excited to partner with the Perry Recorder of Deeds Office to provide industry-leading e-recording services to their customers. The Perry County Recorder of Deeds, Wendy M. Welfley, and her staff continue to demonstrate leadership by making the land record submission and recording process easier, more secure and cost-effective document delivery through the use of technology," said Paul Clifford, President of Simplifile. "Companies doing business with the Perry Recorder of Deeds Office will enjoy significant cost savings, productivity gains, and enhanced filing and recording by e-recording with Simplifile"

**About Simplifile**

Simplifile provides innovative, simple, and secure electronic recording services via the Internet for a wide variety of customers, including title companies, banks, attorneys, lien filers, and County and State government jurisdictions. Simplifile e-recording services accelerate document recording and simplify document workflow processes, significantly reducing costly overhead associated with traditional submission and recordation methods while dramatically improving client service levels.

Simplifile is focused on building the industry's de facto e-recording network. As such, Simplifile provides a streamlined yet scalable approach to electronic recording tailored to organizations of all shapes and sizes.
