**SIMPLIFILE AND RECORDFUSION ENTER INTO  
STRATEGIC INTEGRATION PARTNERSHIP**

**PROVO, UTAH – March 31, 2009** – In an effort to deliver industry-leading eRecording services to their mutual customers, Utah-based Simplifile, LC and New York-based RecordFusion, announce that they have formed a strategic alliance for the purpose of integrating Simplifile’s eRecording System and RecordFusion’s County Fusion System to enable eRecording for RecordFusion Customers.

The alliance calls for the two companies to integrate their respective eRecording and indexing and imaging systems, allowing documents electronically filed by Simplifile “submitter” customers such as title companies, law offices and banks to be received, reviewed, recorded and returned to those same submitters by counties utilizing the RecordFusion County Fusion System. The accord also provides for Simplifile and RecordFusion to cooperatively market the alliance and resulting services to their mutual customers, including Simplifile submitters and RecordFusion-enabled counties.

“Simplifile is pleased to structure an eRecording alliance with RecordFusion Software,” said Paul Clifford, President of Simplifile. “Partnering with RecordFusion enables Simplifile to provide the many advantages of automated recording workflow—including increased productivity, security and profitability—to RecordFusion enabled counties and the submitters we serve.”

“Partnering with Simplifile, an eRecording industry leader, shows our commitment to our customers in providing premier solutions and services in an open technological environment,” said Bill Welge, President of RecordFusion, “We both look to expand our customer base due to this relationship.”

**About Simplifile**

Simplifile provides innovative, simple, and secure electronic recording services via the Internet for a wide variety of customers, including title companies, banks, attorneys, lien filers, and County and State government jurisdictions. Simplifile e-recording services accelerate document recording and simplify document workflow processes, significantly reducing costly overhead associated with traditional submission and recordation methods while dramatically improving client service levels.

Simplifile is focused on building the industry's de facto e-recording network. As such, Simplifile provides a streamlined and scalable approach to electronic recording for organizations of all shapes and sizes. For more information on how Simplifile can benefit your organization, visit [www.simplifile.com](http://www.simplifile.com) or call 801.373.0151.

### **About RecordFusion**

RecordFusion helps county government and commercial offices transform their land and records management and storage operations with customized technology solutions. Services include state-of-the-art imaging and indexing, records management software, disaster recovery, and proprietary redaction and eRecording technology. RecordFusion brings decades of experience in digital land records management to every county implementation.
