**SIMPLIFILE AND COMPUTER ARTS FORM STRATEGIC ALLIANCE**

**PROVO, UTAH – September 10, 2009** – Simplifile, the leader in e-recording, and Computer Arts Software, Inc. (CAI), a developer of state-of-the-art governmental software solutions, announced the formation of a strategic alliance between the two companies and the integration of CAI's Recording & Imaging software into the Simplifile e-recording network.

This integration allows documents to be electronically filed by Simplifile submitter customers such as title companies, law offices, and banks. The documents are then received, reviewed, recorded, and returned to those same submitters by counties running CAI's Recording & Imaging software. The strategic alliance also provides for Simplifile and CAI to cooperatively market the alliance and resulting services to their mutual customers.

"Computer Arts is excited to work with Simplifile and continue to bring cutting edge technology to Idaho and other markets" said Mitch Cromwell, CAI Vice President. "The integration of Simplifile's e-recording and CAI's Recording & Imaging provides a solution that improves the quality of life in the workplace for those involved in this once cumbersome process."

"Simplifile is pleased to work with Computer Arts to automate the document recording process," said Erik Blomquist, Simplifile Vice President of Technology. "Computer Arts provides industry-leading government record automation technologies throughout the state of Idaho. By integrating the Computer Arts' Recording & Imaging software system into the Simplifile e-recording network, the combined offering brings the benefits of e-recording to key markets nationwide."

**About Simplifile**

Simplifile provides innovative, simple, and secure electronic recording services via the Internet. Simplifile's customers include title companies, banks, attorneys, lien filers, and county and state government jurisdictions. Simplifile electronic recording services accelerate document recording and simplifies document workflow processes that reduces costly overhead associated with traditional submission and recordation methods while improving client service levels.

Simplifile is focused on building the industry's de facto electronic recording network. As such, Simplifile provides a streamlined and scalable approach to electronic recording tailored to

organizations of all shapes and sizes. For more information on how Simplifile can benefit your organization, visit [www.simplifile.com](http://www.simplifile.com) or call 801.373.0151.

**About Computer Arts, Inc.**

Computer Arts, Inc. (CAI) is a corporation specializing in custom computer software development, technology consulting services and extensive hardware and software support services. CAI was originally founded in 1983 for the purpose of providing quality software and support at competitive prices to local government agencies. Today, with our headquarters in Meridian, Idaho and support offices in Idaho Falls, Pocatello, and Sandpoint, Idaho, we provide computer software and support to over 30 counties and 50 Law agencies in the state. CAI also offers consulting and support services to businesses in the private sector.
