**SIMPLIFILE AND INFOCON CORPORATION FORM STRATEGIC ALLIANCE**

**PROVO, UTAH – September 10, 2009** – Simplifile, the leader in e-recording, and *INFOCON Corporation*, a developer of software for government offices and private industry, announced the formation of a strategic alliance between the two companies and the integration of *INFOCON's* Recorder of Deeds into the Simplifile e-recording network.

This integration allows documents to be electronically filed by Simplifile submitter customers such as title companies, law offices, and banks. The documents are then received, reviewed, recorded, and returned to those same submitters by counties running *INFOCON Corporation's* Recorder of Deeds. The strategic alliance also provides for Simplifile and *INFOCON Corporation* to cooperatively market the alliance and resulting services to their mutual customers.

"Those of us here at *INFOCON Corporation* are very pleased to be associated with Simplifile and to integrate their e-recording expertise to our Recorder of Deeds application," said Regis Bodenschatz, *INFOCON* President. "Simplifile brings a wealth of knowledge in electronic transaction processing to our alliance. This knowledge integrated with *INFOCON's* Recorder of Deeds application provides our clients with a modern, web based interface for both our established and future clients."

"Simplifile is pleased to work with *INFOCON Corporation* to automate the document recording process," said Erik Blomquist, Simplifile Vice President of Technology. "*INFOCON Corporation* provides service to more than 400 government offices nationwide. By integrating *INFOCON Corporation's* Recorder of Deeds system into the Simplifile e-recording network, the combined offering brings the benefits of e-recording to key markets nationwide."

**About Simplifile**

Simplifile provides innovative, simple, and secure electronic recording services via the Internet. Simplifile's customers include title companies, banks, attorneys, lien filers, and county and state government jurisdictions. Simplifile electronic recording services accelerate document recording and simplifies document workflow processes that reduces costly overhead associated with traditional submission and recordation methods while improving client service levels.

Simplifile is focused on building the industry's de facto electronic recording network. As such, Simplifile provides a streamlined and scalable approach to electronic recording tailored to organizations of all shapes and sizes. For more information on how Simplifile can benefit your organization, visit [www.simplifile.com](http://www.simplifile.com) or call 801.373.0151.

**About *INFOCON Corporation***
