**SIMPLIFILE AND PROFESSIONAL DOCUMENT SYSTEMS FORM STRATEGIC ALLIANCE**

**PROVO, UTAH – September 10, 2009** – Simplifile, the leader in e-recording, and Professional Document Systems (PDS), an innovator of end-to-end document management systems and software, announced the formation of a strategic alliance between the two companies and the integration of the ClerkTrack Recording and Filing system into the Simplifile e-recording network.

This integration allows documents electronically filed by Simplifile submitter customers such as title companies, law offices, and banks, to be received, reviewed, recorded, and returned to those same submitters by counties running PDS's ClerkTrack Software. The strategic alliance also provides for Simplifile and PDS to cooperatively market the alliance and resulting services to their mutual customers.

"Forging this partnership with Simplifile has provided PDS with the ability to offer our county clients an industry leading e-recording submission platform that integrates seamlessly with our ClerkTrack recording system," said Matt Bowman, President of PDS. "We look forward to the many benefits that this exciting, new technology brings to county clerks' offices."

"Simplifile is pleased to work with PDS to automate the document recording process," said Erik Blomquist, Simplifile Vice President of Technology. "PDS provides industry-leading document automation technologies to counties and organizations throughout New Mexico and West Texas. By integrating the PDS ClerkTrack system into the Simplifile e-recording network, the combined offering brings the benefits of e-recording to key markets nationwide."

**About Simplifile**

Simplifile provides innovative, simple, and secure electronic recording services via the Internet. Simplifile's customers include title companies, banks, attorneys, lien filers, and county and state government jurisdictions. Simplifile electronic recording services accelerate document recording and simplifies document workflow processes that reduces costly overhead associated with traditional submission and recordation methods while improving client service levels.

Simplifile is focused on building the industry's de facto electronic recording network. As such, Simplifile provides a streamlined and scalable approach to electronic recording tailored to

organizations of all shapes and sizes. For more information on how Simplifile can benefit your organization, visit [www.simplifile.com](http://www.simplifile.com) or call 801.373.0151.

### **About Professional Document Systems**
