CASS COUNTY AND BURLEIGH COUNTY, NORTH DAKOTA, ALONG WITH CLAY COUNTY, MINNESOTA, BEGIN E-RECORDING WITH SIMPLIFILE

PROVO, UTAH – September 11, 2009 – Simplifile today announced that Cass County and Burleigh County, North Dakota, and Clay County, Minnesota, will officially begin electronically recording (e-recording) land record documents submitted by title companies, abstractors, banks, and attorneys through the Simplifile e-recording service.

E-recording is the process of submitting, receiving, and processing documents for recording via the Internet that have traditionally been sent to the county for recording by runner, express mail, or courier service. E-Recording simplifies and accelerates all aspects of the recording process and dramatically improves the county's ability to serve its constituents.

The counties are hosting two e-recording kickoff meetings to introduce the public to e-recording. The first kickoff meeting will be held on Wednesday, September 16, 2009 at 2:00 p.m. at the Courtyard by Marriot Conference Center Ballroom – Salon G located at 180 28th Ave. S, in Moorhead, Minnesota. The second kickoff meeting will be held on Thursday, September 17, 2009 at 10:00 a.m. at the City/County Building located at 221 N 5th St., in Bismarck, North Dakota. Dallen Miner, Simplifile Vice President, will be in attendance to demonstrate the system and to conduct a question and answer session.

"We are excited about Electronic Recording," said Debbie Kroshus, Burleigh County Recorder. "I have been interested in doing this for quite awhile now and look forward to the time and cost savings it will have for my office, the County, and our customers. I am always looking for ways to have the office run more efficiently and I have a great staff that enjoys new challenges and new technology. We are ready to accept documents electronically."

"Simplifile's large customer base will increase our volume of e-recording which will produce better efficiency to those document submitters and the county," said Bonnie Rehder, Clay County Recorder.

"Simplifile is excited to see the acceleration of e-recording in Minnesota and North Dakota and to lead the expansion of e-recording nationwide," said Paul Clifford, President of Simplifile. "As the market leader in e-recording, we are driven to make the land record submission and recording process easier, more secure, and cost-effective through the use of leading technology."

About Simplifile

Simplifile provides innovative, simple, and secure electronic recording services via the Internet for a wide variety of customers, including title companies, banks, attorneys, lien filers, and County and State government jurisdictions. Simplifile e-recording services accelerate document recording and simplify document workflow processes, significantly reducing costly overhead associated with traditional submission and recordation methods while dramatically improving client service levels.

Simplifile is focused on building the industry's de facto e-recording network. As such, Simplifile provides a streamlined and scalable approach to electronic recording for organizations of all shapes and sizes.
