CHESTERFIELD COUNTY, VIRGINIA CIRCUIT COURT CLERK BEGINS E-RECORDING WITH SIMPLIFILE

CHESTERFIELD COUNTY, VIRGINIA – November 17, 2009 – Simplifile today announced that the Honorable Judy L. Worthington, Clerk of the Circuit Court of Chesterfield County, Virginia, officially began electronically recording (e-recording) land record documents submitted by title companies, abstractors, banks, and attorneys through the Simplifile e-recording service. This service was made possible through a cooperative effort between Simplifile, the Circuit Court Clerk's Office, and the Clerk's land records management vendor, Logan Systems.

E-Recording is the process of submitting, receiving, and processing documents for recording via the Internet that have traditionally been sent to the Clerk for recording by runner, express mail, or courier service. E-Recording simplifies and accelerates all aspects of the recording process and dramatically improves the Clerk's ability to serve constituents.

"The Chesterfield Circuit Court Clerk's Office is pleased to provide e-recording for land record documents," said Chesterfield County Clerk of the Circuit Court, Judy L. Worthington. "We are proud of the technological advances we have implemented and are excited about how e-recording will enable us to more efficiently record documents. Not only will e-recording save time for our customers, it will help to eliminate document filing errors. Additionally, e-recording customers working with Simplifile will now be able to record and track the status of documents from the convenience of their offices, using a web browser."

"Logan Systems is proud to add electronic recording to the services that we provide the Chesterfield Circuit Court Clerk," said Craig Sanders, vice-president of Logan Systems. "The leadership and staff in Chesterfield are very technologically progressive and I believe that electronic recording fits well with the other automation accomplishments within the office. I have been pleased with the efforts made by Simplifile to accommodate both the needs of Logan Systems and the Clerk's Office."

"Simplifile is excited to partner with the Chesterfield Circuit Court Clerk to provide e-recording services to their customers. Judy Worthington and her staff continue to demonstrate leadership by making the land record submission and recording process easier, more secure, and cost-effective through the use of technology," said Paul Clifford, president of Simplifile. "Organizations doing business with the Chesterfield Circuit Court Clerk's Office will enjoy time savings, cost savings, and productivity gains by e-recording with Simplifile."

About Simplifile

Simplifile provides innovative, simple, and secure electronic recording services via the Internet for a wide variety of customers, including title companies, banks, attorneys, lien filers, and County and State government jurisdictions. Simplifile e-recording services accelerate document recording and simplify document workflow processes, significantly reducing costly overhead associated with traditional submission and recordation methods while dramatically improving client service levels.

Simplifile is focused on building the industry's de facto e-recording network. As such, Simplifile provides a streamlined and scalable approach to electronic recording for organizations of all shapes and sizes. For more information on how Simplifile can benefit your organization, visit www.simplifile.com or call 801.373.0151.
