### FOR IMMEDIATE RELEASE

### Duval County to eRecord with Simplifile

**DUVAL COUNTY, FLORIDA – July 23, 2008**

Simplifile announced today that Duval County, Florida is now electronically recording (eRecording) land record documents such as satisfactions, mortgages, and reconveyances submitted by title companies, banks, and attorneys to the Clerk's Office through the Simplifile eRecording Service.

To introduce the public to eRecording, Duval County is hosting an eRecording kick-off meeting from 10:30 am until 12:00 pm on Wednesday, July 23, 2008 on the 15<sup>th</sup> Floor of the Duval County Courthouse Annex located at 220 East Bay Street in Jacksonville, Florida. Simplifile representatives, Molly Terry, Bob Gannon, and Pat Sponem, will be in attendance to demonstrate the system and conduct a question and answer session.

eRecording is the process of submitting, receiving, and processing, via a secure Internet site, documents for recording that have traditionally been delivered to the county for recording by runner, express mail, or courier service. eRecording offers customers the ability to simplify and accelerate all aspects of the recording process, dramatically shortening the gap and improving auditability.

"The Duval County Clerk's Office is pleased to work with Simplifile to provide eRecording services to our clients," said Clerk of the Court, Jim Fuller. According to Fuller, "We are continually evaluating ways to improve the quality of our services, and believe that eRecording enables us to more efficiently record documents, eliminate document filing errors, and actually increase document security—while at the same time, work with our private sector partners to improve turn-around times and increase efficiencies. eRecording customers will now have the ability to record and track the status of documents from the convenience of their offices."

"Simplifile is pleased to provide industry-leading eRecording services to the Duval County and their customers. Clerk Jim Fuller and his staff continue to take proven steps to make the land record submission and recording process easier, more secure and cost-effective through the use of technology," said Paul Clifford, President of Simplifile. "Based on our experience deploying eRecording solutions in counties nationwide—including an increasing number of counties in Florida—companies doing business with the Clerk's Office will enjoy significant cost savings, productivity gains and enhanced filing and recording services by eRecording with Simplifile."

Individuals and organizations that regularly file documents with Duval County are invited to contact the Clerk's Office or Simplifile for more information on how to take advantage of Simplifile eRecording services.
