SIMPLIFILE AND MIPS FORM STRATEGIC ALLIANCE

MIPS Integrated Into The Simplifile E-Recording Network

PROVO, UTAH – January 11, 2010 – Simplifile, the leader in e-recording, and Multi-County Information and Programming Services Inc. (dba MIPS), the technology division of NACO supported counties, today announced the formation of a strategic alliance between the two companies and the integration of MIPS into the Simplifile e-recording network.

The strategic alliance between the two companies immediately facilitated the rapid integration of MIPS into the Simplifile e-recording network. This integration allows documents electronically filed by Simplifile submitter customers such as title companies, law offices, and banks, to be received, reviewed, recorded, and returned to those same submitters by counties running MIPS. The strategic alliance also provides for Simplifile and MIPS to cooperatively market the alliance and resulting services to their mutual customers.

"Simplifile is pleased to work with MIPS to automate the document recording process," said Erik Blomquist, Simplifile Vice President of Technology. "MIPS provides industry-leading government record automation technologies to many counties across Nebraska. By integrating MIPS into the Simplifile e-recording network, the combined offering brings the benefits of e-recording to key markets statewide."

About Simplifile

Simplifile provides innovative, simple, and secure electronic recording services via the Internet. Simplifile's customers include title companies, banks, attorneys, lien filers, and county and state government jurisdictions. Simplifile electronic recording services accelerate document recording and simplifies document workflow processes that reduces costly overhead associated with traditional submission and recordation methods while improving client service levels.

Simplifile is focused on building the industry's de facto electronic recording network. As such, Simplifile provides a streamlined and scalable approach to electronic recording tailored to organizations of all shapes and sizes. For more information on how Simplifile can benefit your organization, visit www.simplifile.com or call 801.373.0151.

About MIPS Inc.

MIPS Inc. was created to provide Nebraska counties with enhanced computer software, hardware, support, and consultation services. MIPS offers to counties a full range of IBM AS400 and PC-based software packages, primarily for the offices of the assessor, clerk, and treasurer. Included within its product line, MIPS offers programs for accounting and payroll, property assessment, valuation, taxation, and on-line receipting.

Simplifile is a registered service mark of Simplifile, LC.
